"Isaiah 35:3-4 Strengthen the feeble hands, steady the knees that give way; say to those with fearful hearts, "Be strong, do not fear; your God will come with vengeance; with divine retribution he will come and save you Lin.""

Julia McMurrey, Tyler Texas

"This case is of utmost importance. It is about us, all of us respecting the Constitution of the U.S. and the Bill of Rights, making operational decisions concerning our own business, but even more basic--our individual right to believe in possibility as opposed to the practices associated with the usual shelter decisions of no-possibility. It is up to us to make a real difference here, to elevate, with dignity, the conversation of NO-Kill behavior. This case offers itself up to more privilege, than problems, so dive in and get things done in a positive way. The truth always works. Sometimes like homeopathic care, a little slow at first, but, over time the real cure."

Bob Nolan, Allison Park PA

"Lin has dedicated her life to saving animals, only to have it taken from her in a few days by an organization that seems to be concerned only with destroying what others have worked so hard for and their own greed!"

"It took four people seven months to destroy 14 years of one person's dedication to god's creatures. It took hours for an overzealous organization to kill god's creatures. Moreover, it will take a lifetime for those of us who too loved these cats to forgive them."

"PSPCA should be ashamed of their organization"

xxxxxxx, Boswell PA

"Thank God for the Tiger Ranch. What they do at the Tiger Ranch is a gift from God... helping the innocent that have no voice... If only they could speak... Everyone would know how grateful they are to be saved by those thoughtful caring people of the Tiger Ranch."

xxxxxxx, EVANS CITY PA

"Lin, affectionately known as "The Cat Lady" is a God send. Taking care of our feline friends at Tiger Ranch is her life. She has never profited from the Ranch. Lin spends her own money and together with donations from other cat lovers, she gives TLC to all these unwanted cats by giving them a place to live where they are fed, kept warm when it is cold outside and where they are protected and are safe. We can clearly see who the real abusers are, the PSPCA who raided the ranch and killed the hundred or so cats. Lin would never had harmed them. She strongly believes in the NO KILL RESOLUTION. Lin put the cats first before herself. There is a place up there for this special lady. God loves her. Good luck, my friend, Lin."

"It's a shame that an organization claiming they are looking out for the animals best interest had many of them killed. Lin loved these animals and gave them the chance to live a great life. I have faith the animals will be returned one day soon!"

"These people are not helping the animals. They are killing them, they raid people and steal their animals and then sell them they have to be stopped."

"We all fear this happening to our own rescues. What a sorry, sorry excuse for an SPCA. They should be ashamed, banned from ever operating anywhere again, and pay LIN a heavy, heavy fine to help her recover and rescue others."

Teri Morlan, Terre Haute Indiana

"I trust LinMarie completely. I would takes cats to her today! My daughter and I visited Tiger Ranch with some cats from a kill shelter in Terre Haute, Indiana. I took lots of pictures and was very impressed. If I were a cat, I'd want to stay at Tiger Ranch forever -- espically if I were feral! I pray that Lin and Tiger Ranch survive this evil attack. "

Madeleine Lapointe-Millar, Stittsville Ontario

"The intent adn motivation of the man accusing in this case seems blatantly self-serving and money oriented. The fact that he dilled a large number of cats without having left the grounds (or had them properly checked by a vet) or exmined vet records of the Ranch indicates to me a person who does NOT have the best interests of animals at heart. It seems more likely that his possible contract with Animal Planet is the motivator, that and eliminating "competition". this, to me, is the ugly side of NGO,(Non-governmental organizations) that are taken over by the power and money hungry. I have not believed the story put forth about this cat rescue (Tiger Ranch) from the beginning. "

Linda M. Hauser, Freeland MD

"When I read the articles about the raid, I felt as many others did.....something was not quite kosher about what the PSPCA wanted the public to believe. And I, too, was suspicious of Howard Nelson's forced tears. I believe in the work Tiger Ranch did & am a huge proponent of the no-kill philosophy. What many don't know is that the SPCA's are sitting on MILLIONS of dollars but they won't spend any on the animals, even those that require immediate medical attention for emergencies that are treatable & can very well survive to live a full life. The SPCA's would rather kill the animals. even healthy ones, to save the money. In this case, we had an organization forcing another out of business & damaging their good name so that they could look like the heroes. Heroes of what? They killed the animals being treated because they weren't going to spend their money to have these animals' health needs tended to. It was easier for them to destroy them. Howard Nelson & others have been given too much power but, more importantly, who's watching Howard Nelson and those like him?"

SUSAN BROWNING, LAUREL MD

Kristine Lewis, McKees Rocks PA

"This case again Tiger Ranch just turns my stomach! Let Lin and all of the other caregivers get back to what they do best ~ taking care of animals and giving them a home when no one else would! Animals get sick just as humans do. Animals die just as humans do. It is a part of life. Don't punish these people because some of the animals were sick. That is a real part of life! They deserve to get the animals back that haven't already been euthanized by the PSPCA and get on with what they do best....caring for these beautiful creatures."

RoxAnne Ianuale, Saylorsburg PA

"The PSPCA should be very ashamed to even call themselves a "rescue organization."How can they take these innocent animals from the safest home they have ever known terrorize some and kill others? Out of hundreds of cats unfortunately there are going to be some ill cats. Just as if you had a group of a few hundred humans, you will no doubt find ill humans among the group. Life is not prefect people and animals get sick. They also recover if given the opportunity. The PSPCA should be shut down. It make me ill to think of the funding they receive and the treatment the animals are getting in return. I commend Tiger Ranch and the work the they do for these animals. We need more rescues like this, and could do with out ones like the PSPCA."

"Use to think Pos. thoughts to the ASPCA but those thoughts got flushed down the toilet along with them and my feelings towards what i thought they stood for. ALSO along with the feelings towards the "idiots" that caused this all to happen. What they did to Lin was the crime and NOT the good Lin and all the local helpers did to step up and help the animals that were given up on due to people not being able to afford the care for these pets. so friggen tell me how LIN was in the wrong... Both myself and my girls have visited at Tiger Ranch manytimes...Lin? we luv ya girl...."

"Lyn did a wonderful thing at the ranch and did everyone elses dirty work! She is and was a very dedicated caring person and would never put an animal or person in jeopardy. I was there when someone tied a goat to the fence and left it for her! I was there when she would come home to find 10 stray unwanted cats left in carriers on her doorstep! she never said no and never gave up. She cleaned up everyone elses messes because they were too irresponsible to take care of their pets! God bless her"

"Linn did the best job of taking care of everyone with low incomes for spaying and helping your cats. It's baloney they are trying to crucify her and use her as an example. For pity sakes, she took anyones cats and tried to help them, no matter what she had to do And like giving raby shots should be a crime. They still work no matter who injects them. "God blessed Lin Marie with a heart for cats. I wish more people took an interest in cats like she does. They are her life, and only God can know the pain this has brought to her. My cat Monkey says Hi, and thanks again for the help you gave when she was sick from anesthesia, after her surgery. I wish you were closer to my home but you are well worth the 45 min drive. God will bless you for all the love you have for his animals. I will continue praying for you and the cats. "

"I have gotten a kitten from the Tiger Ranch, and have referred a lot of friends there. Therefore, I have spent a lot of time there. At NO TIME did I ever see ANY animal mistreated, nor did ANY animal look neglected. If the PSPCA doesn't drop these charges, they should fund 20 more no-kill shelters to open. "There are people who give their life to a great cause, I believe Lin is one of these person's. I just heard of Tiger Ranch from a co worker, who told me of such a wonderful place, then to find out by checking out the website how sad things have unfolded. It is sad to think these cats had a safe refuge, long gone from their minds of the conditions they had to endure prior to the ranch. I think the PSPCA could of handled things in a better manner!!!!!! Good luck Lin and Tiger Ranch. "

xxxxxxx, New Bethlehem Pa

"It seems as if this lady was charged for providng a valuable service to so many people and cats. Media sways public opinion by showing sick cats. Some believe in euthanizing and some are no kill. This woman should not be charged because she believes in no kill. I know people that have no one to help them with their feral cats now. What is the surrounding area going to do when the cat population jumps up. She supported altering animals to prevent overpopulation. That in and of itself is great! Drop the charges and provide her with resources to continue this wonderful service."

Betsy Crouse, Gibsonia PA

"I hope the true motivations of everyone involved in this case become crystal clear in court. It is mind-boggling that Lin's name has been so maligned. In recent years she had been arranging almost single-handedly for the low cost spay/neuter of hundreds and hundreds of cats per year. That others wantonly destroyed those efforts is extraordinary. Let the fate of every litter of unwanted kittens born to a cat that would have been sterilized through Tiger Ranch remind us to be slow to condemn just because someone isn't doing things exactly as we think they should."

Amy Dalgliesh, Powells Point North Carolina

""Absolute power corrupts absolutely", and this (as with many "shelters")is a perfect example. I am tired of the whole kill-shelter mentality. It obviously is not working and needs to evolve. While so many welfare groups are looking for that perfect home, animals are dying in the millions. Life is not all roses, and sometimes we all have to live in homes that aren't perfect and we all from time to time get sick. Given a chance, most can work through the tough times, however if you are dead, all opportunity is gone. "
